# How to print with ezeep

Print from the web

### Print directly from your web browser
Go to ezeep.com and log in or register.

Go to the *Print Now* tab.

Drag & drop or select the document you want to print.
Select a printer and optionally choose your settings.

Hit *Print* and pick up your document from the printer.
Print from desktop

With ezeep for desktop you can print natively from any desktop application
Go to ezeep.com/ download

Download for Windows or Mac.

Install on your computer and login within the app.

Open the document you want to print and choose *File > Print*.

Printers prefixed with [e] are ezeep printers. Select one and hit *Print*.
Print from mobile

Print from your phone or tablet with ezeep's app for iOS and Android

Go to iOS App Store or Google Play Store.

Search for ezeep and install the app.

Login within the app with your ezeep account.

Send any document you want to print to the app via Open In (iOS) or Share (Android)

Select a printer and hit Print.
